

Confex celebrated its 8th Trade Show on 10th April, at the Devere Hotel, Cirencester. A great chance for Suppliers and Members to get together, it was a hub of activity with over 500 attendees. Confex's newly-launched App was further marketed, with every member who attended the show downloading the App on arrival. Confex Chairman Martin Williams was in attendance at his first Trade Show too.

Following the show, the awards ceremony and dinner took place and with record entrants this year, The Confex Green Wholesaler Awards were the highlight of the evening. When first launched in 2013, Confex realised being environmentally sustainable as a business was important, now 5 years later it is clear this is paramount. That is why Confex is so proud of this award and through our Environmental consultant Dave Hilton, Confex gets a chance to see how its members are dealing with environmental issues and realising the important link between environmental and economic success. It is clear that stopping waste, reducing environmental impact and being sustainably efficient can and has boosted Confex Members' businesses.

The results were as follows:

Best Retail Wholesaler Winner – GWD Convenience  
 Best Foodservice Wholesaler – Dunsters Farm  
 Best Practise Wholesaler Winner – Nasco

Confex looks forward to a prosperous and focused trading year ahead.
